Campos dos Goytacazes – RJ, 18 de janeiro de 2022

Marcelo Alvarenga Moço

Subsecretário Adjunto de Receita

Matrícula: 138877

Table with 10 columns of identification numbers (e.g., 00.059.9110001-94, 00.069.3370001-02, etc.)

Table with 10 columns of numerical data, likely representing a list of records or transactions. The data is organized in a grid format with varying column widths.

Table with multiple columns containing alphanumeric codes and numbers, likely representing a list of records or identifiers.

Table with multiple columns containing alphanumeric identifiers and numerical values, likely representing a public record or financial statement.

Table with multiple columns containing alphanumeric codes and numbers, likely representing a list of records or identifiers.

Table with multiple columns containing alphanumeric identifiers and numerical values, likely representing a public record or ledger.

Table with multiple columns containing alphanumeric identifiers and numerical values, likely representing a public record or list of entries.

Table with multiple columns containing alphanumeric identifiers and numerical values, likely representing a public record or list of entries.

Table with 10 columns of alphanumeric identifiers, likely representing a list of records or transactions. The data is organized in a grid format with varying column widths.

Table with 4 columns of numerical data, likely representing a list of records or identifiers. The table is organized into four vertical columns of numbers.

Table with multiple columns containing alphanumeric identifiers and numerical values, likely representing a public record or administrative data.

Table with multiple columns containing numerical data, likely representing a list of records or transactions. The table is organized into several vertical columns, each containing a series of numbers. The numbers are arranged in a grid-like pattern, with some columns having a consistent number of entries and others varying slightly. The overall layout is dense and repetitive, typical of a public record or ledger.

Table with multiple columns containing numerical data, likely representing a public accountancy or budgetary record. The table is organized into several vertical columns, each containing a long list of numbers. The numbers appear to be identifiers or codes for various entries.

Table with multiple columns containing alphanumeric codes and numbers, likely representing a list of records or identifiers.

Table with 4 columns of numerical data, likely representing a list of records or identifiers. The data is organized in a grid format with 4 columns and approximately 100 rows.

Table with 10 columns of numerical data, likely representing a list of records or transactions. The data is organized in a grid format with varying column widths.

Table with 4 columns of alphanumeric identifiers, likely representing a list of records or documents. The table is organized into four vertical columns of data.

Table with 4 columns of identification numbers (e.g., 39.697.610/0001-21, 39.721.821/0001-52, etc.)

Table with 10 columns of alphanumeric identifiers, likely representing a list of records or transactions. The data is organized in a grid format with varying column widths.

Table with 4 columns of identification numbers (e.g., 42.031.8740001-05, 42.083.910001-39, etc.)

Table with 10 columns of numerical data, likely representing a list of records or identifiers. The data is organized in a grid format across the page.
